HUNGARY – SPECIAL GUEST

1. Horus Archive, FF Gallery, ul. Traugutta 18

3. Arion GáKudasz, Cafe Foto, ul. Piotrkowska 102

BRIGHT SIEDE OF REALITY. MODERN HUNGARIAN PHOTOGRAPHY

Artists: Szabolcs Barakonyi, Judit Katalin Elek, Lilla Szász, Gábor Gerhes, Krisztina Erdei, Enikő Hangay, Gábor Arion Kudász
Curator: Gabriella Csiszek

The pictures of the exhibition explore the possibilities that can make us smile. These possibilities range from distinct, almost hidden irony to the unusual, more absurd associations, through presenting the impossible or by using the expressions of a language. A smile can also arise from surprise or joy of recognition. The pictures show the beauty, confusion, absurdity, sometimes disturbing harshness or secret harmony of an "abnormal world".

Horus Archive
Sándor Kardos collection

Horus, the name chosen for the archive, is symbolic. In Egyptian hieroglyphic writing, the image of the eye of Horus stands for the figure "1", while its details stand for fractions diminishing endlessly. All the smallest parts are images taken from an amateur film, while the entire picture gives a whole, something divine, a special interpretation of the small elements. The point is that I consider collecting itself an independent art, just like photography. "Great" photographers are able to spot things that are not noticed by those who participate in them. They record them, so, in that respect, they make a selection of life. Amateurs take a million photographs and a similar phenomenon may occur, i.e. a masterpiece may be born without the photographer or the people appearing in the picture being aware of it. From the point of view of selection, however, it does not matter whether the recognition of the content takes place before the exposure or later, perhaps even decades later.

30th ANNIVERSARY OF ŁÓDŹ KALISKA

Łódź Kaliska, May Man Rot, Łódź Art Center, ul. Tymienieckiego 3

The group started 30 years ago with a happening entitled ***Dividing the street with a black ribbon with the aim of making fuss and diverting attention in order to cover a group of people with a white sheet, tie them up and bang their asses***. Their performances, projects, movies, manifestos and speeches show that since that first happening they have been dealing with the issue of individual's freedom in culture and society in a provocative and controversial fashion. They never allow their audience to remain indifferent. Works and projects such as PLEASE SIT DOWN – LAST SUPPER (PROSZĘ SIADAĆ – OSTATNIA WIECZERZA), FRAIRICHAIT – NEIN DANKE, SISTERS (SIOSTRY) series, ALEMENTARZ, or HOW TO KILL MANUAL (INSTRUKCJA ZABIJANIA SZTUKI) have all become a permanent element of history and scenery of the Polish art.

The project attempts to present an ideal world, world without men, where women do perfectly fine in areas formerly forbidden to them – fishing boats, quarries, foundries, in upholstery or carpenter shops, etc. They work in unison and solidarity while remaining naturally and evidently beautiful.

PHOTO-INDUSTRIAL
CONTEST

The year 1907 saw the opening of the Łódź Power Plant (Łódzka Elektrownia), later called EC 1, which served the city for almost a hundred years. Closed down and practically inaccessible for visitors now, it will soon turn into a significant part of the New City Centre. Modernization will irrevocably change its form, character and use. The aim of the contest is to create a documentation of the EC1 space in its present "raw" industrial state.

With its rich diversity of technical and architectural forms combined with authentic art nouveau ornamental elements, which delighted David Lynch so much, EC1 is but a promised land for photographers. The contest is a perfect opportunity to see and document it. During the contest, EC1 will open its gates for artists. Organizers of the 8th International Festival of Photography and EC1 Łódź Miasto Kultury (EC1 institution- Lodz City of Culture) have made a common effort to encourage artists to seek inspiration in the industrial architecture of Łódź.

Open days in EC1 5-6 (space without exhibition 'Second Cities') 9-10 (space with exhibition 'Second Cities') of May, 7.00AM - 2.00PM

SLIDES-SHOWS & LECTURES

6×6 — Fragments of European Photography

Even people who deal with photography on a daily basis find it difficult to choose what is important and worth attention from the profusion of "photographic works" of the last years. It is not easy to follow every novelty, change, interesting names and ideas. Slideshows and curator presentations are an attempt to update the recent changes and trends in the European photography.

We invited curators from six countries to help us create this programme. Each of them was asked to make a subjective choice of artists and photo projects that best reflect the character and condition of current photography of a given country.

The presentations is comprised of two parts. The first part consists of lectures during which the curators will present their latest photo discoveries and will try to explain their choice of projects. The second part consists of night slideshows with music prepared especially for the Fotofestiwal.
