

## PHOTOWALKS

Łódź is very photogenic and it is a city of many mysteries and secrets. You can learn about it on your own if you take part in a series of photowalks organised by Fotofestiwal, its Main Patron Samsung, and the Gazeta Wyborcza daily. Every walk will be guided by a professional tourist guide and a photographer, who will give advice on how to make an interesting photo, and what aspects of urban space are worth photographer's attention. Meet us on two consecutive Fotofestiwal Sundays. Limited number of participants, details on [www.fotofestiwal.com](http://www.fotofestiwal.com)
