

SLIDESHOWS - FOTOFESTIWAL 2011

Friday evening, 6 May, will be closed with slideshows. We invite specialists to work on the programme every year. This year, this task has been given to editors of online photo magazines. We will have a chance to see the special Fotofestiwal selection of works presented last year in 1000 Words Magazine, Poncz Magazine and Lapsus Magazine.

A series of curator presentations during night slideshows was started two years ago. Its basic goal is to follow interesting people of the contemporary world of photography – curators, and, most of all, artists.

Slideshows are created exclusively for Fotofestiwal. Perfect selection of works by curators and carefully picked music result in unique presentations.

More information about the slideshows [HERE](#).
